

Saw Mill River and Hudson River Stakeholder Report

EVERYONE MUST TAKE TIME TO SIT AND
WATCH THE LEAVES TURN - ELIZABETH LAWRENCE

AN UPCOMING HIBERNATION

It seems impossible that this sampling season is shortly coming to an end with only one event left for the year. As the leaves slowly begin changing their color, I begin thinking about the wrap up of this year's enterococcus sampling. Overall, we have seen improvements along some parts of the river in terms of water quality; but, we are also made aware of some new and continuing challenges. We will continue expanding upon our understanding of the ever changing environment and encourage you to do the same. Our inboxes welcome your continued thoughts about the Saw Mill and Hudson Rivers throughout the cooler season.

(The Distinguished River): A section of our newsletter dedicated to the great ever changing rivers

We are excited to reveal the first SLC CURB Water Quality Gauge sign housed at the entrance of Habirshaw Park. The sign will act as a passive education hub, providing interested community visitors with different tools in understanding our enterococcus sampling program. This educational sign, like our stakeholder report, will develop an informed and engaged community that will ultimately support the betterment of environmental quality.

This project and supporting event is made possible through generous funding by [ConEd](#).

DATA

*Most Probable Number of Colony Forming Enterobacteria per 100ml sample. EPA recommends public notification and possible temporary beach closure for single Enterobacteria samples above 60 cells/100ml. Samples testing above this threshold appear in red on the Riverkeeper website, while those below it appear in green. To avoid exposure to chronic contamination, the geometric mean, a weighted 30-day average, should not exceed 30 cells/100ml. To avoid exposure to occasional high levels of contamination, no more than 10% of samples should exceed 110 cells/100ml.

Watershed	River Mile	Site ID	Site Name	Sample Date	MPN*
Hudson		SMR-HR-20	Yonkers - JFK Marina boat launch	10/7/2021 11:02 AM	158
